

Module Title:

Project Management (35 Hours)

Module Description:

This training covers the entire Guide to the Project Management Body of Knowledge as to include: Scope, Time, Quality, Human Resources, Communications, Risk and Procurement Management. The training provides the attendees with formal educational contact time required for PMI certification. Given its depth of coverage it is also a must for every project engineer and project manager as it provides your key team members with a full understanding of project management techniques.
